

EXAGO

Reliable
equine
imaging

Your complete animal imaging solution

EXAGO

Designed with the latest technologies, the ExaGo delivers exceptional image quality for a range of equine ultrasound applications.

Compatible with a range of convex and linear probes as well as an OPU gun, the ExaGo can effectively perform reproductive and orthopaedic examinations. Easily interchange your preferred

probe to diagnose effectively and accurately.

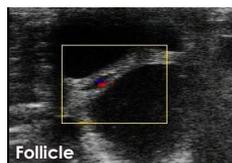

Compact, lightweight and with an 8.4" colour doppler screen it is intuitive to use, designed specifically for veterinarians needs. With a battery life of more than 5 hours the ExaGo is a rugged and reliable scanner for all your equine needs.

28 day pregnancy

Tendons

Follicle

LR760P - Linear Rectal

C360A - Convex

C614P - Micro Convex

L378V - Linear 'tendons'

Specifications

Size and Weight

Depth : 30,6 cm
Width : 26,5 cm
Height: 7,1 cm
3.2 kg (including battery)

Imaging Modes

B mode/B/B mode (Dual B)
M mode
Colour Flow Mapping (CFM) Velocity
Pulsed Wave Doppler (PW)

Clinical Applications

Equine and bovine reproduction and OPU
Equine orthopaedics
Back fat, muscle, loin eye and IMF on pigs and beef cattle

Probe Compatibility

C360A Convex
C320A Convex
C614P Micro-convex
L3130B Swine meat science linear
L3180B Beef meat science linear
LR760V Rectal linear
E610A OPU Gun
L378V Linear 'tendons' probe

Storing and Connectivity

Image and clip storage
RCA port
RJ 45 (Dicom)
USB port
DVI output
